EXPLANATIONS

Column 1 - Self-explanatory.

Column 2 - See document entitled "Glossary of Related Terms."

Column 3 - The total funds (town and school district) raised by property taxes to provide voted services. These assessment figures are provided by the Department of Revenue Administration.

Column 4 - That part of the amount in Column 3 which is raised by property taxes for school purposes. Figure is listed in budget reports (MS-22 or [illegible]23) as "District Assessment" and in many cases will have been adjusted by the Department of Revenue Administration.

Column 5 - This is the amount of money designated as the school portion of the Return of Revenue to Cities and Towns (see "Glossary of Related Terms") under RSA 31-A.

Column 6 - Derived by subtracting Column 5 from Column 4.

Column 7 - The total town or city tax rates per $100 of assessed property valuation as determined by the Department of Revenue Administration converted to rates per $1000 of property valuation for the purpose of this report. Actual town or city tax rates have been used. In a few cases, the assessed valuation of a school district differs slightly from the valuation of the town or city due to property "set-offs" from one town or city to another. All assessed valuations reported in this study are those applicable to school districts. Total tax rates computed from the data appearing in this report will not always precisely agree with the total tax rates listed here, due to mathematical rounding off and conversion to rates per thousand.

Column 8 - School tax rates have been converted to rates per $1,000 and are derived by dividing Column 6 by Column 2. See explanation of Column 7.

Column 9 - Derived by dividing Column 6 by Column 3.

Column 10 - See "Glossary of Related Terms" for definition of equalized valuation. See also explanation of Column 7.

Column 11 - Derived by dividing Column 3 by Column 10.

Column 12 - Derived by dividing Column 6 by Column 10.
